

IRENA MOLNAR

With my greatest pleasure I am sending this motivation letter, in order to apply for membership in the Steering Committee of Eurasian Harm Reduction Association.

NGO Re Generation is a member of EHRA since the beginning of its "new life" as an association, continuing our membership at EHRN. In the past couple of years, after I have been elected to be Re Generation Executive Directress, I have been closely cooperating with EHRA and staff, through our partnership projects as well as other assessment activities in regard to SEE region within the Association.

Membership in EHRA and the close collaborations, has a significant impact and support for the growth of NGO Re Generation and personally, therefore I believe that it's important to communicate and influence the region to take bigger part in the Association's opportunities and actions, which I believe I can influence showing a good practice examples and lessons learned, also enabling that success for many organizations, with focus on SEE.

As someone who has previous and current experience in work of various networks, especially focusing on representing voices of CSOs in the region, through work in DPNSEE, as well as through work of YODA before that the most of the member of organizations are ones I have been working with before, I could bring all that experience to EHRA Steering Committees work, facilitating the fulfillment of the Association's mission by leading the strategy development and overseeing its implementation. In addition to that knowledge, my experience and practice working on the EU integration process can be an asset being that there are a number of countries in the EHRA on the path of EU Integration process.

My concrete results in work with EHRA so far, as well as my experience in work on a specific areas of drug policy and harm reduction, focusing on young people and LGBTQI, gender equality and/or GBV among others, that are taking bigger place in contemporary advocacy in drug policy reform, are qualifying for this position. I will be more than happy to work and advise on improving the understanding of these specific issues related to mentioned topics with all my experience that I will bring in the future work, if chosen to be a Steering Committee member of Eurasian Harm Reduction Association.

Thank you for your time and consideration.

Sincerely,

Irena Molnar
