

LETTER OF MOTIVATION TO PARTICIPATE IN THE ELECTIONS OF EHRA STEERING COMMITTEE

Pulod Dzhamolov, executive director of the public organization “SPIN PLUS”.

Public organization “SPIN PLUS” is registered in the Ministry of Justice of the Republic of Tajikistan in 2007 (number of the re-registration of organization in the registry of the Ministry of Justice - 5075).

The mission of the organization is to promote measures aimed at improving the quality of life, protecting the rights and interests of people who use drugs, improving access to medical and social services, social support services for people living with HIV (PLHIV), tuberculosis and hepatitis C.

I think that organization “Eurasian Harm Reduction Association” has high potential to support people from key populations.

The experience of working with the EHRA significantly increased the organizational potential of SPIN PLUS NGO, through trainings and joint activities. For the first time in the country we began advocacy activities to protect the rights of key populations, we began advocacy activities on budget advocacy issues, we gained experience in implementing the theory of change, providing services to key populations in harm reduction, providing continuous services using large-scale research and began to form a unique country base of evidence of the effectiveness of the implemented programs for the sustainability of projects and programs implemented in the field of HIV.

I am running for election to the leadership of the EHRA, to work hard together and because of the opportunity to jointly influence the situation in the field of HIV in Tajikistan, on the issues of advocacy for the institutionalization of harm reduction programs, reduction / deprivation of criminalization in the field of HIV, tuberculosis, hepatitis, advocacy for the sustainability of programs and projects in the field of HIV.

Sincerely,

Pulod Dzhamolov

Dushanbe, 5th August 2021
